

# Joshua Castillo

Mesa, AZ | jostillo91@gmail.com | linkedin.com/in/joshua-castillo-development

## Front-End Web Developer

Driven front-end developer with a foundation in responsive web design, JavaScript, and React. Experienced in eCommerce, AWS deployment, and UI/UX principles. Adept at blending creativity with functionality to build engaging digital experiences. Background in business operations and client relations, bringing strong communication and project management skills to development teams.

## Technical Skills

HTML5, CSS3, JavaScript (ES6+), React, Git/GitHub, REST APIs, Bootstrap, Tailwind CSS, AWS (S3/CloudFront), Agile Development, UI/UX Design, Shopify (Liquid), JSON, Figma

## Experience

### Frontend Developer | QuickStart Inc.

May 2025 – Present · Mesa, AZ

Built and deployed responsive web applications using React, HTML, CSS, and JavaScript (ES6+). Integrated APIs and managed state to deliver dynamic, user-focused interfaces. Deployed projects using AWS (S3/CloudFront) and implemented version control with Git/GitHub. Completed multiple team and solo projects including an automated JavaScript card game and a responsive eCommerce storefront.

### Dispatcher | Auction Direct Transport

March 2025 – Present · Mesa, AZ

Coordinate nationwide vehicle pickups and deliveries between auctions, dealerships, and carriers. Communicate with drivers to ensure timely operations and accurate status updates. Manage logistics using dispatch software and maintain compliance with transport regulations.

### Business Solutions Consultant | Equus Workforce Solutions

July 2024 – March 2025 · Yuma, AZ

Partnered with local businesses to implement workforce programs such as internships and on-the-job training. Provided consultation on workforce retention and development strategies. Served as liaison between employers, job seekers, and community programs to promote local economic growth.

### Web Designer | Monarch Web Solutions

July 2023 – July 2024

Designed and maintained custom eCommerce storefronts and marketing pages. Created optimized product layouts and interactive user flows improving conversion and accessibility.

## Education

Mesa Community College – Frontend Software Development Certification (Mar 2025 – Oct 2025)

Arizona Western College – Mechanical Engineering Coursework (2009 – 2014)

## **Projects**

Task Manager App: React-based task manager featuring CRUD operations, local storage persistence, and responsive layout.

WAR Card Game: Automated two-player JavaScript card game utilizing OOP concepts and DOM manipulation.

## **Additional Experience**

General Manager | The Hidden Village Food and Games (2016–2021)

Dispatcher | RATPgroup (2020–2023)
